PROFILE

As a MERN Stack Developer, I specialize in React.js, Node.js, and MongoDB, creating seamless and responsive web applications. With a proven track record of delivering high-quality solutions, I excel in crafting interactive user interfaces and robust server-side applications. My commitment to clean, maintainable code ensures optimal performance and scalability. Adaptable and collaborative, I thrive in dynamic team environments, meeting deadlines with innovative solutions. Continuously updating my skills, I stay abreast of the latest technologies to bring efficiency and creativity to every project. I am ready to contribute my expertise to elevate web development endeavors.

EDUCATION

- school**
Govt.Higher.Secondary.School, Thirubuvanam .
2012- 2013
- Bachelor of Commerce**
Annamalai University-chidambaram
2019 - 2022

SKILLS

HTML
CSS
JavaScript
Bootstrap
Node
Express.js
NoSQL
SQL
MongoDb

WORK EXPERIENCE

Projects

E-Commerce Application

Developed a full-fledged e-commerce web application using the MERN (MongoDB, Express.js, React, Node.js) stack. Implemented a responsive and user-friendly front-end using React, allowing seamless navigation and an engaging shopping experience. Designed and implemented a dynamic product catalog, enabling users to browse, search, and filter products based on various attributes.

Real-Time Chat Application using Socket.io

Created a real-time chat app using Socket.IO and the MERN stack. Enabled secure user authentication and implemented dynamic updates. Utilized MongoDB, Express, React, and Node.js for a seamless chat experience.

Gmail Clone with Nodemailer and MERN Stack

Created a real-time chat app using Socket.IO and the MERN stack. Enabled secure user authentication and implemented dynamic updates. Utilized MongoDB, Express, React, and Node.js for a seamless chat experience.

web scraping application

I have successfully developed a dynamic MERN stack web scraping application. This project showcases my expertise in MongoDB, Express.js, React, and Node.js. The application efficiently extracts and displays valuable information from websites, demonstrating my proficiency in both frontend and backend technologies.
